The Fox Lock-In® Pool Cover

The Fox Lock-In® design lets you put the cover where it belongs, below the deck. Until Fox perfected its exclusive Lock-In® design, pool covers rested on the deck, usually causing deck stains. The pool cover is actually installed inside the pool, "locked in" just below the decorative coping.

- Your pool looks as beautiful in the off-season as it does during the summer.
- The Fox Lock-In® design eliminates deck clutter and prevents leaves or insects from getting under the cover.
- Superior strength with a 20 mil sidewall welded to a 12 mil bottom.
- Protected with a 3-year Limited Warranty.
